Guidance on Ethical Appraisal of New Digital Technologies and AI

1. The Panel discussed the knowledge and information that it already had to inform its consideration of this topic, and identified where it had gaps.

2. The Panel would prepare a draft terms of reference for this work which would outline the scope of the project and focus the work on the ethical issues, drawing on what the Panel has learnt from its consideration of the MPS's use of Live Facial Recognition.

Duties to Victims of High-Volume Crimes

3. The Panel discussed what information it would need in order to understand what might be the ethical considerations. It was agreed that it would be informative to visit the MPS's Crime Recording Investigation Bureau to develop an understanding of how some volume crime is dealt with.

The Panel's next meeting will be on 9 June 2025
